C O M P L A I N T S

We would like to take this opportunity to congratulate and thank you all personally for helping the Board of Nursing in the protection of the public.

It is the obligation of persons in the health care field to report problem nurses to the State Board of Nursing in writing. It is the purpose of the Board to insure safe, efficient health care for the citizens of Missouri. If a nurse becomes dependent on drugs or alcohol, and cannot function safely as a nurse, then it becomes the obligation of that nurses's supervisor and/or director to report the problem. We believe that every effort should be made to help the nurse with a chemical dependency problem to rehabilitate herself, but again, the Board's primary concern, is safe, efficient health care for the public.

When the Board receives a complaint, it is referred to our investigators who investigate and make a report at the next Board Meeting. At that time, the Board members will decide whether to dismiss the case for lack of evidence or if sufficient evidence exists, it is referred to the Administrative Hearing Commission. They, in turn, schedule a hearing, review all the facts and any testimony, and then render their Findings of Fact. The matter then comes back to the Board Meeting for possible probation, revocation or suspension, in varying terms and stipulations. Each case is considered on its own facts and there is no fixed schedule of disciplinary action.

LIST OF NURSING LICENSES ON PROBATION, SUSPENSION OR WHICH HAVE BEEN REVOKED

The following disciplinary actions were taken at hearings conducted by the Missouri State Board of Nursing. All disciplinary actions are relative to violations of the Nursing Practice Act.
