**NURSING ETHICS TASK FORCE
ESTABLISHED**

August 16, 1994, the Missouri State Board of Nursing established a Task Force to consider the relationship between the Missouri Nurse Practice Act and a professional code of ethics. The creation of this Task Force is a result of Board concerns that the health care environment is becoming increasingly more complex and ethical dilemmas more frequent.

The purpose of this Task Force will be to operationalize the nationally recognized professional nursing codes to the Nursing Practice Act. Professional codes to be reviewed include: "ANA-Code for Nurses with Interpretive Statements"; "International Council of Nurses Code for Nurses", and "Code of Ethics for Licensed Practical/Vocational Nurse". After review of the above codes, the Task Force will make recommendations for the extent of ethical considerations, i.e. position statement or language appropriate for statute.

Members of the Task Force include the following:

- Glenda Miller, Chair,
- Gay Cunningham
- Belinda Heimericks
- Sr. Jeanne Meurer
- Delores Ware
- Florence Stillman
- Connie Bunting
- Joyce Haynie
- Martha Baker
- Susan Taylor.

To date, the committee has met two times. The next scheduled meeting will be held on January 10, 1995 at the Professional Registration Building in Jefferson City.

NON-SUFFICIENT FUNDS CHECKS

When a nurse issues a check for licensure on an account with insufficient funds, for whatever reason, the license issued in good faith becomes invalid immediately upon board office notification. The license then remains invalid until

such time as it is paid for in full, which includes the renewal fee and penalty for NSF check. In matters concerning license renewal, when NSF checks are issued, the renewed license becomes null and void. This becomes a very serious matter in that the nurse is then considered, from a legal perspective, practicing on a lapsed license. The licensee, in these circumstances, should not practice nursing until the license is paid for in full; this includes the renewal fee, late fee since the deadline for renewal has passed and penalty for NSF check. Furthermore, if the licensee has worked on a lapsed license, additional disciplinary action may be taken.

**MISSOURI STATE BOARD
OF NURSING'S PUBLIC
INFORMATION BROCHURE**

The Board of Nursing has prepared a pamphlet that contains basic information regarding the functions and duties of the Board. Its' contents include brief summaries regarding the education, licensure, practice and discipline sections as well as the structure of the Board. Telephone numbers are also available for each section mentioned.

To obtain a copy of this publication you can call 314-751-1416 or send a letter of request. There is no charge involved.

BOOKS OF CURRENT RNS AND LPNs

There are books available which list all Registered Professional Nurses and Licensed Practical Nurses currently licensed in the State of Missouri. Anyone wishing to obtain a copy of these books must send a letter of request to:

Missouri State Board of Nursing
P. O. Box 656
Jefferson City, MO 65102

The cost would be approximately \$25.00 for Registered Nurses and

\$17.50 for Licensed Practical Nurses (cost subject to change). Please call Norma Helmig, Department of Health Statistics, 314-751-6279 prior to mailing request to the Board office.

**FURTHER INFORMATION REGARDING
RELEASES OF INFORMATION**

In order for the Missouri State Board of Nursing to provide information from a licensee's file which is not available -

- a. under the Mandatory Reporting Rule, or
- b. as a matter of public record,

a release bearing a signature of the licensee authorizing the Missouri State Board of Nursing to release information must be received. A release reflecting a copy of the signature is as sufficient as the original signature.

If you have questions concerning releases of information, you can call the Board office at 314-751-6541.

**REVISION MADE TO
UNCOLLECTIBLE POLICY**

At the January, 1994 Board meeting, a motion was made, seconded, and passed to revise the uncollectible policy from "30 days to 20 days" as the time frame that acceptable repayment for an uncollectible instrument must be received in our office after notification has been sent to the licensee.

In addition to the 20 day time frame, the decision of the Board was to also begin utilizing the Prosecuting

Attorney's office for assistance in collecting uncollectible instruments that the Board of Nursing has been unsuccessful in recovering.

When notification of an uncollectible instrument is received in this office, the licensee/applicant is sent a certified letter, return receipt requested. The letter states that repayment must be received within 20 days or the matter will be referred to the Prosecuting Attorney's office for further pursuit. The file of the licensee or applicant is flagged and verified as "invalid" until the uncollectible has been made good.

If a licensee/applicant has contacted our office in advance regarding a possible uncollectible instrument, the information is maintained in a flagged file. When we receive notification from the Department of Revenue of the uncollectible instrument, licensee's/applicants who have contacted us in advance receive a phone call and instructions on submitting acceptable repayment.

During the renewal period it can take from four (4) to six (6) weeks for our office to receive notice from the Department of Revenue that the payment will not clear the bank. Therefore, PLEASE DO NOT AUTOMATICALLY SEND A REPAYMENT when you receive notice from your bank, call our office first. We do not automatically accept a repayment for an uncollectible instrument without first receiving notice from the Department of Revenue that the payment was uncollectible. For us to do so would give the appearance that a duplicate payment is being made.

If the licensee/applicant fails to make restitution for the uncollectible instrument, their information will be referred to the Prosecuting Attorney's office, and their name and license number will be listed in the quarterly Newsletter published by this office.

If you have questions regarding uncollectibles or invalid licenses, contact Pam Campbell at (314) 751-3656.

**PASSING RATES ANNOUNCED FOR
NCLEX USING COMPUTERIZED
ADAPTIVE TESTING**

At the close of the first quarter of NCLEX testing (April through June, 1994), the National Council of State Boards of Nursing is pleased to announce that the passing rates of the National Council Licensure Examinations for Registered Nurses and Practical/Vocational Nurses (NCLEX-RN and NCLEX-PN), administered using computerized adaptive testing (CAT), are substantially similar to the NCLEX as previously administered by paper-and-pencil. The passing rates listed below use data from U.S. educated, first-time takers of the NCLEX.

NCLEX-RN:

PASSING RATE:

July 1993 (paper-and-pencil administration 91.1%

February 1994 (paper-and-pencil administration 89.9%

First Quarter of CAT administration (April - June, 1994) 93.3%

NCLEX-PN:

PASSING RATE:

April 1993 (paper-and-pencil administration) 89.1%

October 1993 (paper-and-pencil administration) 90.6%

First Quarter of CAT administration (April - June, 1994) 90.6%

The NCLEX using CAT is being administered at Sylvan Technology Centers, with Educational Testing Service (ETS) providing testing services for the National Council. As of June 28, 1994, a total of 45,109 tests were conducted nationwide.

"We are delighted that the test results of the first testing quarter reflect our anticipated expectations as based on our years of research, field testing and the Beta Test which was conducted last summer," stated President Rosa Lee Weinert, RN, MS. "This truly marks a great achievement

by hundreds of hard working nurses and testing professionals who had the foresight and dedication to bring a project of this magnitude to fruition. Boards of nursing across this country, along with ETS and Sylvan Learning Systems, are to be highly commended for this historic accomplishment."

President Weinert noted that at the close of the first quarter of CAT (April-June 1994), National Council's member boards of nursing had deemed a total of 92,509 candidates eligible to test. The total number of NCLEX candidates has, over the past few years, typically been around 190,000 annually.

The change from the paper-and-pencil, twice-a-year administration to year-round testing via CAT has been carefully researched and tested over eight years. Computerized adaptive testing is a method for administering tests which use today's computer technology and measurement theory. The NCLEX administered via CAT uses standard NCLEX multiple-choice questions. With CAT, each candidates's test is unique: it is assembled interactively as the individual is tested. As the candidate answers each question, the computer calculates a competence estimate based on all earlier answers. The test questions, which are stored in a large item bank and classified by test plan area and level of difficulty, are then scanned and the one determined to measure the candidate most precisely in the appropriate test plan area is selected and presented on the computer screen. This process is repeated for each question, creating a test tailored to the individual's knowledge and skills while fulfilling all test plan requirements. The examination continues in this way until a pass or fail decision can be confidently made. CAT provides greater efficiency in measurement, as it administers only those questions which will offer the best measurement of the of the candidate's competence.

Boards of nursing and the National Council may be contacted for more information about the NCLEX and computerized adaptive testing.
