- HB957

Ms. Grinston also reported regarding HB957 which addresses out-of-state drug distributors. Pfizer and Missouri Pharmacy Association are both supporting this legislation. Tom Glenski suggested that if this legislation passes, a regulation amendment should be considered for foreign drug distributor applications, and possibly a whole different application process implemented. Jim Riddle and Barbara Bilek pointed out that “standards” in paragraph 2 will vary from country to country, and the company should be required to report on renewal applications disciplinary action taken by their home country/state or any other country/state. Ms. Grinston reported that during a previous conference call Pfizer suggested that instead of the FDA inspection another type of reporting mechanism be considered, possibly consultant reviews. President Riddle commented that “most recent FDA inspection” could be used instead of the two-year FDA inspection. Drue Duncan commented that he felt Pfizer will support such language.

**Motion was made by Gary Sobocinski, seconded by Pam Marshall, to work with the sponsor of HB957 and Pfizer to change the two-year FDA inspection requirement to allow for more lenient language and to also change the \$10 registration fee language. DISPOSITION: Discussion and Board guidance with regard to Board’s position on data collection and use of such data.

Kim Grinston reported regarding the history of this issue, and that Curt Thompson has concerns about whether the Board has clear legal authority to do such a data collection.
