(2) For every person desiring to enter the profession of embalming dead human bodies within Missouri the board may conduct a criminal history background check through the Missouri State Highway Patrol. Applicants shall submit to the board the applicable fee for the criminal history background check as determined by the Missouri State Highway Patrol.

Each person desiring to be a practicum student shall register with the board as a practicum student on the form provided by the board in accordance with the requirements of the accredited institution of mortuary science prior to beginning the practicum. Applications must be accompanied by the applicable fee.

(4) During the period of the practicum, the certificate of registration issued to the practicum student shall be displayed in a conspicuous location accessible to the public at each funeral establishment where the practicum student is working.

(5) The practicum student registration authorizes the registrant to engage in the practice of embalming only at the Missouri licensed funeral establishment(s) designated on the certificate of registration and only under the direct supervision of a Missouri licensed embalmer. The practicum student may assist in the practice of funeral directing only under the direct supervision of a Missouri licensed funeral director and only at the Missouri licensed funeral establishment(s) designated on the certificate of registration. If the apprentice embalmer begins work at any other Missouri licensed funeral establishment during the period of apprenticeship, the apprentice embalmer shall notify the board, on the form provided by the board, within ten (10) business days after the change has been made.

(14) The period of apprenticeship under this rule must be at least twelve (12) consecutive months. During the period of the apprenticeship, the certificate of registration issued to the apprentice shall be displayed in a conspicuous location accessible to the public at each funeral establishment where the apprentice is working.

(15) Prior to completion of the period of apprenticeship, the apprentice embalmer must achieve a grade of seventy-five percent (75%) or greater on the Missouri Law exam administered by the board. (16) An affidavit provided by the board, signed by both the apprentice and the supervisor(s) verifying that the applicant has successfully completed the embalming of twenty-five (25) dead human bodies, must be submitted to the board at the time of completion of the apprenticeship period and prior to the oral examination.

The oral examination shall consist of no fewer than five (5) substantive questions related to the practice of embalming and/or the statutes, rules, and regulations governing embalming practice in the state of Missouri. Whether the applicant satisfactorily completes the oral examination shall be in the sole discretion of the board.

(19) After satisfactory completion of these requirements, an embalmer’s license shall be issued to an apprentice embalmer upon payment of the applicable fee and subject to the provisions of section 333.121, RSMo.

This information must be provided to the board within thirty (30) days of being finally adjudicated or found guilty.

(23) Any embalmer licensed by the board in state of Missouri who wishes to become a licensed funeral director shall be required to comply with all requirements necessary for licensure as a funeral director, except, the Missouri licensed embalmer shall be exempt from the requirement of a funeral director apprenticeship.

(24) Should an individual desire to obtain a Missouri embalmer’s license after his/her license has become void under section 333.081.3, RSMo, the individual shall be required to make application, obtain a passing grade on the embalmer examination and shall be required to complete a six (6) consecutive month period of apprenticeship during which time s/he shall be required to embalm at least twelve (12) dead human bodies under the supervision of a Missouri licensed embalmer. (2) Every person who desires to enter the profession of funeral directing in Missouri and who is not entitled to a license under section 333.051, RSMo, shall make application with the board for a Missouri funeral director license on the forms provided by the board and shall pay the funeral director application and the administration fees for the Missouri law examination and Missouri Funeral Service Arts examination directly to the board. The scheduling and payment of the examinations will be made through the International Conference of Funeral Service Examining Boards, Inc., or designee. If the applicant has successfully completed the National Funeral Service Arts examination, no Missouri Funeral Service Arts examination is required, and no Missouri Funeral Services Arts examination fee may be applicable. Application forms can be obtained from the board office or the board’s website at http://www.ecodev.state.mo.us/pr/embalm.

(3) Effective June 1, 2004, the funeral director examination administered by the board shall consist of the Missouri law section and the Missouri Funeral Service Arts section developed and furnished by the International Conference of Funeral Service Examining Boards, Inc., or its designee. In lieu of the Missouri Funeral Service Arts examination, successful completion of the National Funeral Service Arts examination results will be accepted.

(4) To serve as an apprentice funeral director, the applicant shall file with the board a completed funeral director application on the form prescribed by the board and also shall complete an application to be registered as an apprentice funeral director on the form prescribed by the board and pay all applicable fees. Application forms and a list of fees can be obtained from the board office or on the board’s website at http://www.ecodev.state.mo.us/pr/embalm.

(5) Upon registration and payment in full of all applicable fees, the board shall issue the apprentice funeral director applicant a funeral director apprentice registration. This registration authorizes the apprentice registrant to engage in the practice of funeral directing under the supervision of a Missouri licensed funeral director. The funeral director
apprentice registration, or a copy thereof, shall be displayed in a conspicuous location accessible to the public at each establishment where the apprentice is working.

(6) The funeral director apprentice registration authorizes the registrant to engage in the practice of funeral directing only during the period of apprenticeship. Once the apprenticeship is successfully completed as defined in this rule, the funeral director apprentice registration shall become null and void. Any Missouri licensed funeral director who allows a former apprentice who has completed his/her apprenticeship to engage in the practice of funeral directing before that apprentice is fully licensed shall be subject to discipline for misconduct under section 333.121.2, RSMo.

(7) Each registered funeral director apprentice shall provide to the board, on the application prescribed by the board, the name(s), location(s) and license number(s) of each funeral establishment(s) where they are serving as an apprentice. The funeral director apprenticeship may be served at a funeral establishment licensed by a state, other than Missouri, upon submission of proof to the board that the out-of-state funeral home is licensed for the care and preparation for burial and transportation of human dead in this state or another state which has established standards for admission to practice funeral directing equal to, or more stringent than, the requirement for admission to practice funeral directing in this state. If the funeral director apprentice changes funeral establishments during the course of the apprenticeship, the apprentice shall notify the board, on the form prescribed by the board, of the name(s), location(s) and funeral establishment(s) license number(s) of the new apprenticeship location within ten (10) business days after the change has been made.

(8) Successful completion of a funeral director apprenticeship shall consist of the following:
   (A) Completed service as an apprentice funeral director for a period consisting of at least twelve (12) consecutive months in a Function C funeral establishment; and
   (B) Filing with the board a notarized affidavit(s) signed by the apprentice and his/her supervisor(s) that s/he has arranged for and conducted a minimum of ten (10) funeral ceremonies under the supervision of a Missouri licensed funeral director.

(9) An apprentice will be eligible to take the funeral director examination after completion of the twelve (12) consecutive month period of apprenticeship.

(10) An applicant will be deemed to have successfully completed the funeral director examination when a score of seventy-five percent (75%) or better is achieved on each section. If the applicant fails a section of the examination, the applicant shall be permitted to retake that section upon application and payment of the administration fee to the board. Scheduling and payment of the examination fee will be made through the International Funeral Service Examining Boards, Inc., or its designee.

(11) All notifications for the funeral director’s examination must be in writing and received by the board at least forty five (45) days prior to the date of the next regularly scheduled examination and must be accompanied by all applicable fees.

(12) A college accredited by a recognized national, state, or regional accrediting body may seek the approval of the State Board of Embalmers and Funeral Directors for a course of study in funeral directing by submitting a description of the program, the college catalog listing the course of study and evidence that the program has been approved to be offered in that institution by the administration of the college and the Missouri Coordinating Board for Higher Education.

(13) An applicant shall be exempt from the requirement of successful completion of the Missouri Law examination if the applicant has successfully completed the Missouri Law examination for another license within twelve (12) months of the date that the board receives the new application.

(14) It shall be considered misconduct in the practice of funeral directing for a Missouri licensed funeral director to permit any unlicensed person to engage in, or take charge of, the activities for which a license is required by law.

(15) A Missouri licensed funeral director shall be present and personally must supervise or conduct each funeral ceremony conducted by or from a Missouri licensed funeral establishment. A violation of this section will be considered misconduct in the practice of funeral directing.
(16) A Missouri licensed funeral director shall be present and personally must supervise any disinterment, interment, entombment, or cremation as defined in 4 CSR 120-1.040. If the disinterment does not require legal notification to the county coroner or medical examiner, a funeral director’s presence may not be required. A violation of this section shall be deemed misconduct in the practice of funeral directing. Once the body has been delivered to a cemetery for the purpose of interment or to a crematory for the purpose of cremation and after any funeral ceremonies have been completed, the Missouri licensed funeral director is not required to stay with the body. Nothing in this rule shall be interpreted as requiring the Missouri licensed funeral director to leave the cemetery before disposition is complete. Furthermore, nothing in this rule shall be interpreted as relieving the Missouri licensed funeral director of any responsibilities s/he has under his/her contract with the person(s) having the right to control the incidents of burial.

(17) An unlicensed person may transport dead human bodies from the place of death to another location or may transport dead human bodies out of this state if these services are performed under the direction of a Missouri licensed funeral establishment.

(18) No person other than a Missouri licensed funeral director shall be allowed to make the following at-need arrangements with the person having the right to control the incidents of disposition:

(A) Removal of a dead human body, arrangements for final disposition, supervision of visitation and memorial ceremony, grave attendance, cremation, entering into a contractual relationship for performance of any other funeral services;

(B) Embalming, cremation, care, preparation, shipment or transportation of a dead human body; and

(C) Sale or rental to the public of funeral merchandise, services or paraphernalia from a Missouri licensed funeral establishment.

(19) The taking of preliminary information by an unlicensed person will not be construed as the making of at-need funeral arrangements under this rule.

(20) Whenever an unlicensed person makes other than at-need funeral arrangements on behalf of a Missouri licensed funeral director or Missouri licensed funeral establishment, the unlicensed person shall be under the supervision and control of a Missouri licensed funeral director at all times.

(21) No temporary Missouri funeral director license authorized under section 333.041.7, RSMo will be issued until the board has been advised as to the location of the Missouri licensed funeral establishment at which the temporary funeral director’s license will be used. The holder of the temporary license shall be authorized to only work at the Missouri licensed funeral establishment(s) where the deceased was authorized to work. Violation of this rule will be deemed unauthorized practice of funeral directing.

(23) The business and practice of funeral directing may be conducted only from a fixed place or establishment which has been licensed by the board.

(24) Limited License.

(A) A person holding a limited license shall be allowed to work only in a funeral establishment licensed only as a Function B funeral establishment (cremation only). It shall be lawful for a limited licensee to engage in any act of funeral directing at a Function B funeral establishment including transportation of dead human bodies to and from the funeral establishment.

(B) Every person desiring a limited license shall provide the following to the board:

1. Proof of being at least eighteen (18) years of age;
2. Proof of possession of a high school diploma or its equivalent;
3. Evidence of being a person of good moral character;
4. Proof of successful completion by achieving a score of 75% or better on the Missouri law examination;
5. Completed application form as provided by the Board;
6. Payment of applicable fees;
7. Payment of any fee charged by the Missouri Highway Patrol for a criminal history background check; and
8. Any other information the Board may require.

(C) Every limited licensee shall provide the board with the name, location and license number of each funeral establishment where she/he is employed.

(D) A limited licensee shall be obligated to comply with all Missouri laws governing funeral directors subject to the limitations imposed by this rule and Section 333.042.2, RSMo.
If a limited licensee desires to obtain a full funeral director’s license, the licensee shall be required to complete an apprenticeship consisting of at least twelve (12) consecutive months as required by Section 333.042.2 and accompanying regulations OR fulfill the education requirements set forth in Section 333.042.3. The limited licensee shall also provide to the board proof of successful completion of the remaining sections of the funeral director examination as required by these regulations. The limited licensee shall not be required to re-take the Missouri law examination.

All certificates, registrations, and licenses, or duplicate copies thereof, issued by the State Board of Embalmers and Funeral Directors shall be displayed at all times in a conspicuous location accessible to the public in each office(s) or place(s) of business where they work, for inspection by any duly authorized agent of the board.

Should an individual desire to obtain a Missouri funeral director’s license after his/her license has become void under section 333.081.3, RSMo, the individual shall be required to make new application and pay all applicable fees to the board. No previous apprentice, application or examination will be considered for the new application. However, the board shall accept the successful completion of the National Funeral Service Arts examination for new application.

A Missouri licensed funeral director may engage in the practice of funeral directing in the state of Missouri only in Missouri licensed funeral establishments. Each Missouri licensed funeral director shall inform the board in writing, in a timely manner, of each Missouri licensed funeral establishment name(s), location(s) and license number(s) where the Missouri licensed funeral director is engaged in funeral directing.

A Missouri licensed funeral director has the ongoing obligation to keep the board informed if the licensee has been finally adjudicated or found guilty, or entered a plea of guilty or nolo contendere, in a criminal prosecution under the laws of any state or of the United States, for any offense reasonably related to the qualifications, functions of duties of any profession licensed or regulated under this chapter, for any offense an essential element of which is fraud, dishonesty, or an act of violence, or for any offense involving moral turpitude, whether or not sentence was imposed. This information must be provided to the board within thirty (30) days of being finally adjudicated or found guilty.

The rules in this division are declared severable. If any rule, or section of a rule, is held invalid by a court of competent jurisdiction or by the Administrative Hearing Commission, the remaining provisions shall remain in full force and effect unless otherwise determined by a court of competent jurisdiction or by the Administrative Hearing Commission.

If a Missouri licensed funeral establishment desires to eliminate one (1) of its functions, other than a Function C, it must notify the board in writing of its intention to surrender the function, but is not required to file a new application for a new Missouri licensed funeral establishment.

(4) A Missouri licensed funeral establishment shall not be used for any other business purpose other than as a Missouri licensed funeral establishment. It shall be permissible for a Missouri licensed funeral establishment to be in the same building as another business so long as the Missouri licensed funeral establishment has a separate entrance and a separate street address.

(5) A Missouri licensed funeral establishment shall be used only for the function for which it is licensed.

(6) Each application for a funeral establishment shall be made in the name of the person or business entity authorized to conduct business in Missouri. No license shall be issued to an establishment that has no legal recognition.

(7) A funeral establishment application shall indicate the name and license number of the Missouri licensed funeral director-in-charge, as defined by 4 CSR 120-1.040. When the Missouri licensed funeral director-in-charge changes for a period of more than thirty (30) days, the new Missouri licensed funeral director-in-charge and the former Missouri licensed funeral director-in-charge, jointly or individually, shall notify the board of the change within thirty (30) days of the date when the change first occurs. Failure to notify the board shall be considered a violation of this rule on the part of each Missouri funeral director licensee and on the part of the Missouri licensed funeral establishment. A change in the Missouri licensed funeral director-in-charge does not require a new Missouri licensed funeral establishment license.
(8) Within thirty (30) days after an application for a Missouri licensed funeral establishment has been received in the board’s office, the board shall cause the establishment to be inspected. The board shall act on the application and, within thirty (30) days after the application was received in the board’s office, the applicant will be advised whether the license is granted or denied. If an applicant determines the establishment will not meet the qualifications for inspection or licensure within the thirty (30)-day application period, up to two (2) thirty (30)-day extensions of the application may be requested by the applicant in writing to the board before the application expires. Each request for an extension must be received by the board prior to the expiration of the application or extension period.

(9) The establishment license issued by the board is effective for a fixed place or establishment and for a specific name of a person or entity authorized to conduct business in Missouri and may include one (1) “doing business as” name. The license issued by the board shall be displayed in a conspicuous location accessible to the general public at that location. Whenever the ownership, location or name of the Missouri licensed establishment is changed, a new license must be obtained. If the Missouri licensed funeral establishment maintains a chapel, preparation room or other facility in a building or portion physically separated from and located at a place designated by an address differing from the office, chapel or other facilities of the applicant, the chapel, preparation room or other funeral facility otherwise located shall be deemed to be a separate funeral establishment. Nothing contained in this rule shall be construed or interpreted to require a separate registration for a building if it is joined or connected by a private passage, walk or driveway existing between the registered establishment and the other building.

A Missouri licensed funeral establishment may use only its registered name in any advertisement or holding out to the public.

(A) If a change of ownership is caused by the elimination of one (1) or more owners, for whatever reason (death, sale of interest, divorce, etc.) without the addition of any new owner(s), it is not necessary to obtain a new establishment license. However, a new application for an establishment license form shall be filed as an amended application within thirty (30) days after the change of ownership. This form shall be filled out completely with correct, current information.

(B) A corporation is considered by law to be a separate person. If a corporation owns a Missouri licensed funeral establishment, it is not necessary to obtain a new establishment license or to file an amended application for an establishment license if the owners of the stock change. However, as a separate person, if a corporation begins ownership of a Missouri licensed funeral establishment or ceases ownership of a Missouri licensed funeral establishment, a new establishment license must be obtained regardless of the relationship of the previous or subsequent owner to the corporation.

(10) The professional business and practice of funeral directing shall be conducted only from a fixed place or establishment that has been licensed by the board except as permitted by section 333.071, RSMo. The Missouri licensed funeral establishment physical facility shall be under the general management and supervision of the Missouri licensed funeral director in-charge. Every Missouri licensed funeral establishment must provide and allow access to any member or duly authorized agent of the board for the purpose of inspection as provided by sections 333.061 and 333.101, RSMo. If any representative of the Missouri licensed funeral establishment fails or refuses to provide or allow access, it shall be considered a violation of this rule by the Missouri licensed funeral establishment and by the Missouri licensed funeral director in charge of the Missouri licensed funeral establishment. Additionally, if the Missouri licensed funeral establishment representative who fails or refuses to provide or allow access holds any license or registration issued by this board, that person shall be in violation of this rule.

(11) No one licensed by this board may be employed in any capacity by an unlicensed funeral establishment. Violation of this section will be deemed misconduct in the practice of embalming or funeral directing.

(12) Only one (1) license will be issued by this board for any physical facility that is considered to be a Missouri licensed funeral establishment as defined by statute and rule. If a Missouri funeral establishment licensed by this board is destroyed by fire or some other disaster or act of God, the board, in its discretion, for a period of not more than six (6) months, may allow the Missouri licensed funeral establishment to continue its operation from another Missouri licensed funeral establishment or from a facility that has not been licensed as a funeral establishment if the facility meets the minimum requirements for the functions outlined in section (2) of this rule.

(13) A Missouri licensed funeral establishment may use only its registered name in any advertisement or holding out to the public.

(A) All signs, stationery and any advertising in newspapers, publications or otherwise, must include the name(s) of the Missouri licensed funeral establishment registered with the board. Advertisements that do not comply with this section shall be deemed misleading for the purposes of section 333.121, RSMo.
(B) It shall not be deemed to be misleading if a listing appears in a telephone directory or national directory if the name of the Missouri licensed funeral establishment changes after the listing has been placed, but before a new directory is published.

(14) The interior and exterior of the Missouri licensed funeral establishment physical plant shall be kept free and clean of litter, dirt, debris and clutter or other objects or conditions which present a potential or actual hazard to the health, safety or welfare of the public.

(15) The interior and exterior of the Missouri licensed funeral establishment physical plant shall be maintained in a manner that does not present a potential or actual hazard to the health, safety or welfare of the public.

(16) Each Missouri licensed funeral establishment used solely or partially for embalming shall contain a preparation room that shall be devoted to activities incident or related to the preparation or the embalming, or both, of dead human remains and shall be equipped and maintained as described in 4 CSR 120-2.090.

(17) No person shall be permitted in a preparation room during the course of embalming a dead human body except the employees of the Missouri licensed funeral establishment in that the human body is being embalmed, members of the family of the deceased, and persons authorized by the members of the family of the deceased, or any person otherwise authorized by law.

(18) Each Missouri licensed funeral establishment which is used solely or partially for cremations shall be equipped and maintained as described in 4 CSR 120-2.071.

(19) Each Function C establishment shall contain a separate area for the care and custody of dead human remains and a separate area for confidential conferences to arrange funeral services. The Function C establishment shall have on-site equipment necessary for arranging funeral services including tables or desks and chairs for funeral service arrangement conferences and file cabinets for the confidential storage of funeral records.

(20) Each Function C or Function D establishment shall contain a restroom, available drinking water, and an area where funeral ceremonies or visitations may be conducted. The establishment must be equipped with seating for visitations or funeral ceremonies, casket bier, register book stand, officiate stand, flower display stands and music-producing equipment.

(21) According to section 333.121.2(17), RSMo, the State Board of Embalmers and Funeral Directors may impose disciplinary action for failure to obtain authorization to embalm from the person entitled to custody or control of the body, if the body is embalmed. If the body is not embalmed, a Missouri licensed funeral establishment shall not hold the unembalmed body for any longer than twenty-four (24) hours unless the unembalmed body is refrigerated in a cooling unit at a temperature of forty degrees Fahrenheit (40 F) or cooler or encased in an airtight metal or metal-lined burial case, casket or box that is closed and hermetically sealed. If the deceased gave written authorization to embalm and did not revoke the authorization, the authorization shall satisfy this requirement. If the deceased did not give written authorization to embalm, the next of kin of the deceased may give authorization to embalm. Authorization to embalm may be given by the next of kin prior to the death of the person whose body is to be embalmed. Authorization to embalm given prior to death may be in any written document, including a preneed contract.

(A) The next of kin, for purposes of this rule, shall be as defined in section 194.119.2, RSMo.

(B) Any person or friend who assumes responsibility for the disposition of the deceased’s remains if no next of kin assumes such responsibility may authorize to embalm the deceased;

(C) The county coroner or medical examiner pursuant to the provisions of Chapter 58, RSMo may authorize to embalm the deceased;

(D) If the body is required to be buried at public expense, the body shall be disposed of according to the terms of section 194.150, RSMo;

(E) If the Missouri licensed funeral establishment receives no authorization to embalm from any of the persons identified in subsections (21)(A), (B), or (C) of this rule, the Missouri licensed funeral establishment may proceed with embalming if it has attempted to locate a person from whom authorization to embalm may be obtained for at least six (6) hours and it has a written statement from city, county, or state law enforcement officials that they have assisted the Missouri licensed funeral establishment in attempting to locate such a person. However, the Missouri licensed embalmer may proceed to embalm sooner if the condition of the body is such that waiting for six (6)
hours would substantially impair the ability to effectively embalm the body or if the deceased died as a result of a communicable disease, was subject to isolation at the time of death; and

(F) If a Missouri licensed embalmer proceeds to embalm a body under the provisions of subsection (21)(E), the Missouri licensed funeral establishment which employs the Missouri licensed embalmer shall not require payment for the embalming unless the funeral arrangements that are subsequently made authorized the embalming.

(22) Each Missouri licensed funeral establishment shall maintain Documentation of the following information regarding authorization to embalm a body which is embalmed by or on behalf of the Missouri licensed funeral establishment:

(A) When authorization to embalm is given in writing—
1. The name and signature of the person who is authorizing embalming;
2. The relationship of that person to the deceased;
3. The time and date authorization to embalm was given; and
4. The name and title of the person receiving authorization to embalm on behalf of the Missouri licensed funeral establishment; and

(B) Authorization to embalm must be given in writing if the person authorizing embalming is present in the Missouri licensed funeral establishment or in the physical presence of the person receiving authorization to embalm on behalf of the Missouri licensed funeral establishment. If verbal authorization to embalm is given, the Missouri licensed funeral establishment shall document—
1. The name of the person who is actually authorizing embalming, if different from the person who is verbally communicating authorization to embalm to the Missouri licensed funeral establishment;
2. The relationship of that person to the deceased;
3. The name of the person who is verbally communicating authorization to embalm and that person’s relationship to the person who is actually authorizing embalming;
4. The time and date authorization to embalm was given; and
5. The name and title of the person receiving authorization to embalm on behalf of the Missouri licensed funeral establishment.

(23) Each Function C funeral establishment shall maintain on the premises the following documents:

(A) General price list;
(B) Preneed contracts which have been cancelled or fulfilled;
(C) Purchase agreements; and
(D) Authorizations to embalm or cremate.

(24) Each Function A funeral establishment licensed for embalming shall maintain on the premises in the preparation room an embalming log.

(25) Each Function B funeral establishment licensed for cremation shall maintain on the premises in the cremation area a cremation log.

(26) All documents required by this rule to be maintained, must be maintained on the premises for a minimum of the current calendar year and the previous calendar year. All documents required to be maintained by this rule may be maintained electronically, but all documents shall be stored in such a manner to allow access by the board and so the board, or its assignee, may easily and timely obtain hard copies or electronic copies in a format easily readable by the board, or its assignee.

(27) No dead human body shall be buried, disinterred, interred, cremated, or removed from this state, unless the burial, disinterment, interment, cremation, removal, or other authorized disposition, is performed under the direction of a Missouri licensed funeral establishment or Missouri licensed funeral director, unless otherwise authorized by law. If the disinterment does not require legal notification to the county coroner or medical examiner, a funeral director’s presence may not be required.

(28) Whenever a dead human body is donated to a medical or educational institution for medical and/or scientific study and arrangements for return of the body to the legal next of kin have not been made, then delivery of the body to the medical or educational institution shall constitute final disposition. If, however, arrangements for return of the body to the legal next of kin have been made, then final disposition shall be the burial, interment, cremation, or removal of the body out of this state, after the medical or educational institution has returned the body.
The rules in this division are declared severable. If any rule, or section of a rule, is held invalid by a court of competent jurisdiction or by the Administrative Hearing Commission, the remaining provisions shall remain in full force and effect unless otherwise determined by a court of competent jurisdiction or by the Administrative Hearing Commission.
