History Corner

Paying homage to Missouri's first licensed nurses

Pat Versailles, RN
Board President
and
Calvina Thomas, PhD, RN
Executive Director

May's Week, May 6-12, provided us with an opportunity to give special tribute to the nurses first licensed by the Missouri State Board of Nursing and to provide you with the key details of the first law. The act was passed in 1909 by the 45th General Assembly of the State of Missouri. Its provision indicated: "An act to provide for the examination, registration and registration of nurses, and providing for the appointment of a board or examiners to examine applicants for registration as nurses, and to provide for the punishment of offenders against the act."

Prior to 1909, nurses practicing in Missouri did not have to register or be recognized by a governing body. Provision were made to grandfather nurses without examination and established criteria for licensure by examination: (1) anyone with a diploma issued before December 1, 1912 from a training program affiliated with a hospital which had a 2 or more year course with systematic instruction, (2) anyone who received one year of training in a general hospital, institution or special hospital prior to 1855 and was practicing on the date of passage of the act or who had been practicing for 5 years prior to the passage of the act, (3) after 1912 the applicant must have a diploma from a training program, passed the exam and be deemed to have the fitness and ability to care for the sick, and (4) any applicant who presents a certified copy of registration in another state whose requirements had been equivalent.

The first year of registration was 1909 with 609 nurses and was followed by 371 in 1911, 412 in 1912, 233 in 1913, 297 in 1914, 255 in 1915, and 278 in 1916 for a grand total of 2393. Each applicant was required to pay a five-dollar fee and if a citizen of Missouri, a copy of the certificate was filed with the county clerk in which the nurse resided. If out of state a copy of the certificate was filed with the county clerk in the county of the applicant's training school. The certificate allowed the nurse to be identified as a registered nurse and be entitled to use R.N. after their name. The provision was also made for the Board to publish anyone not registered using the title R.N. to pay a fine of not less than thirty dollars and not more than five hundred dollars. The Board also continued on page 10

Update on Mutual Recognition Compact Legislation

by Cordelia Estry, PhD, RN.
Board Member

It has been nearly a year since we discussed the multi-state licensure compact. The Missouri State Board of Nursing thought it was best to pass the procedures we should take and then again update you as we seek your assistance in the implementation of such important legislation as multi-state licensure. We will try to keep you apprised as we gain understanding and support for this national initiative by the member boards of the National Council of State Boards of Nursing.

To date, eight states have passed legislation to enact the compact. They are as follows with the dates of enactment in italics:

- Arkansas: 7/1/2000
- Iowa: 7/1/2000
- Maryland: 7/1/1999
- Nebraska: 1/1/2001
- North Carolina: 7/1/2000
- South Dakota: 1/1/2001
- Texas: 1/1/2000
- Utah: 1/1/2000
- Wisconsin: 1/1/2000

These other states, Delaware, Idaho, and Mississippi, have introduced the legislation and it is somewhere in their processes. Others are planning action but to our knowledge have not yet taken any formal steps toward adoption of a compact.

The Missouri State Board of Nursing believes it is in the best interests of nurses in Missouri to support multi-state licensure. Federal interest in removing barriers to interstate commerce we very real, i.e., the recent Telehealth Improvement Act of 1999. It reemphasized the federal interest in licensure by stating, "It is important to note that the Compact is not intended to preclude states from maintaining their own standards for nursing. Indeed, the compact was not intended to supplant the existing structure of state boards of nursing, but to provide a mechanism for the interstate recognition of nursing practice."

Other legislation has been introduced regarding distance delivery of health care professionals from other countries and electronic, e-commerce taxation. All would, in some way, effect licensed personnel. Decisions in these areas may impact how federal and state governments interact regarding regulating inter and intra state licensure of all other professionals.

In Missouri, plans are underway to have a "stakeholders" education day. Individuals and groups who have an interest in or where the multi-state licensure compact could directly affect will be invited to learn what the compact would and would not do. Each of you, too, is important. We ask your questions and participation in discussions. In the meantime, if you have any questions or do not hesitate to contact the office of the Missouri State Board of Nursing.
CORRECTIONAL MEDICAL SERVICES

RNs  LPNs

CORRECTIONAL MEDICAL SERVICES CAN SHOW YOU WHAT A CAREER IN CORRECTIONAL HEALTHCARE REALLY MEANS. ARE YOU READY TO:

* Face new challenges?

Equal Opportunity Employer
Introduction to the Board of Nursing’s Staff

Periodically, we would like to introduce you to members of the staff. In this issue we will introduce you to the staff members who make up our Discipline, Investigations and Practice sections.

**DISCIPLINE**

Left to right are Andrea Collier, B.S., Clerk Typist III; Liz Cardwell, M.Ed., RN, Discipline Coordinator; and Monica McElroy, Clerk Typist II. Collectively, this group has 19 years experience as employees of the Missouri State Board of Nursing. The discipline area’s primary responsibilities include but are not limited to the following: preparation and tracking of all Board decisions pertaining to Board discipline and non-disciplinary decisions; processing of all disciplinary documents; submission of disciplinary information to the appropriate disciplinary data banks; and monitoring of all disciplined licensees’ compliance with the disciplinary period.

**INVESTIGATIONS**

Moving from left to right are George Snodgrass, Lenora Rosinski and Jennifer Houston.

George Snodgrass, Investigator III: George has been with the Board since 1986 and serves as our Chief Investigator. He is responsible for reviewing and screening complaints reported to the Board, supervising and monitoring the progress of case loads in regard to all complaints and investigations and coordinating all investigative efforts. He is also the liaison with all of the other agencies with whom cooperation and good working relationships are desirable and essential.

Lenora Rosinski, Clerk Typist II: Lenora has been with the Board since 1996. She has worked throughout the various sections within the office but now works primarily in Investigations. Lenora is responsible for preparing investigative reports for review by the Board, preparing and maintaining files of new and ongoing complaints and investigations and preparing agendas and mailings to Board members prior to each Board meeting.

Jennifer Houston, Clerk Typist II: Jennifer has been with the Board since 1995. Jennifer began her employment with the Board in Linn County, moved to Administration and then moved to Investigations. She is responsible for maintaining a computerized complaint log pertaining to complaints reviewed by the Board, assisting in the preparation and assigning complaints to investigators, preparing complaints to be reviewed by the Board. She also assists the Chief Investigator in the organization of calls related to standard complaints and investigation gathering.

**PRACTICE**

Moving from left to right are Rachel Davis and Rita Tudyck.

Rachel Davis, Clerk Typist III: Rachel has been with the Board since 1999. She is responsible for participating in the processing of advanced practice nurse applications, preparing mailings to individuals and public and private entities, assisting in the gathering of pertinent and up-to-date practice related documents for customer educational purposes, developing and maintaining pertinent written procedural guidelines documents. Rachel may also act as a resource or referral source to Board members, legislators and other individuals in the absence of the Assistant Director for Discipline and Practice.

Rita Tudyck, PhD, RN, Assistant Director for Discipline and Practice: Rita joined the Board staff in 1992 and is responsible for research in and collecting all data/information necessary for the Board to make decisions regarding practice issues. She also researches administrative rules and regulations in regard to complaints/investigations, discipline, and practice for the Board members in the analysis and decision making process and assists in advocating for legislation pertaining to the Board of Nursing, health and the nursing profession.

**OR Renal Care Group**

Improving the quality of life for people with kidney disease. Renal Care Group Arizona is dedicated to improving the quality of life and to optimal care for these patients with chronic renal disease. Our team of care facilitators are equipped with integrated clinical software, automated renal systems, and centralized ambulatory delivery systems. If you are a dialysis patient or in need of information about our care, please visit our website at www.renalcaregroup.com.

Licensure Corner

Missouri State Board of Nursing Licensure Committee Monitors:
- Jan Davis, LPN, Chair
- Anthony Blum RN BSN, CRNA
- Paul Linneman, PPD
- Patricia Ventraw, RN
- Charlotte Yori, LPN

LPN License Renewal Information
LPN license renewals were mailed February 7, 2000. Approximately 10% of the license renewals were returned due to expired addresses. Yearly view the names and license numbers of individuals whose renewals were returned due an expired address at the Board website, www.mcsen.state.mo.us/np licensing. If you are a LPN and have not received your renewal notice, please contact our office so we may send you another renewal notice. We plan to post a list of our web site of LPNs that did not return their license at the end of the renewal period.

LPN licenses expire on May 31 of each even-numbered year. Renewal licenses will have an expiration date of May 31, 2002.

Forms on Board's Website
You may now print a variety of forms from our website at www.mcsen.state.mo.us/nplicensing. Click on the LICENSURE INFO/FORMS tab. The forms available are: RN endorsement application, LPN endorsement application, RN examination application, LPN examination application, Affidavit for a Duplicate license, petition to renew an expired license, and petition to renew expired LPN license.

Commonly Asked Licensure Questions
Where do I call to verify a Licensed Nurse Assisitent/CNA or Certified Medical Technician/EMT?
Contact the Division of Aging at 573-526-4666.
Where do I call to verify an Emergency Medical Technician (EMT)?
Contact the Bureau of Emergency Medical Services at 573-571-6336.
What is the process for the Board to endorse my license to another state?
You must contact the state board of nursing where you want a license and request an application for licensure. Contact information for boards of nursing can be found at www.nursingboards.org. At the time you apply for licensure in another state, Board will send you a verification of licensure form that must be sent to our office for completion.

AUTHORIZATION TO RELEASE CONFIDENTIAL INFORMATION
(Please Legibly in Block, Ink)
(At my request) hereby authorize the MISSOURI STATE BOARD OF NURSING to release any and all information regarding my license and examination application status as a Licensed Practical Nurse/Registered Professional Nurse-employing employer.
(Release authorizes the Missouri State Board of Nursing to release the following information: my name, address, employer’s name, graduation date, eligibility status, test appointment date, exam date was taken, whether or not I took the exam and my exam results. A copy of this authorization will be considered as effective and valid as the original.

Summary of Actions from March 2000 Board Meeting

ADMINISTRATIVE MATTERS
* The Board approved a motion to submit a proposed fee increase to the following:
  * RN/LPN renewal
  * Verification
  * RN/LPN exam
  * ENR PN enforcement
  * Duplicate license
  * Lapsed license penalty

EDUCATION MATTERS
* The Board adopted the proposal submitted by the University of Missouri - Kansas City for the initial accreditation of a baccalaureate program in nursing.
* The Board passed a motion to allow Sanford Brown/St. Charles Associate Degree program to begin enrolling students with only one class per year and no more than 30 students.
* The Board passed a motion to accept the agreement with Sanford Respiratory Therapy Associate Degree Nursing Program wherein the parties agree that if May 2000 graduates of Sanford Brown do not obtain at least an 80% pass rate on the NCLEX within their designated time frame that Sanford Brown will voluntarily surrender their accreditation.

PRACTICE MATTERS
* The Board passed a motion to restrict its level of participation on the issue of ENF/M's scope of practice to observe only. The Board members and professional staff will monitor the situation and will not attend meetings at this time.

DISCIPLINE MATTERS
The Board held ten violations and six disciplinary hearings.

RN/LPN NURSING OPPORTUNITIES
Join our nursing team that is committed to excellence: Columbia Regional Hospital, University of Missouri Health Sciences Center, offers a team environment that focuses on providing a continuum of needed, accessible and high quality health services. Our Staff for Life offers the opportunity to work with some of the highest caliber professionals involved in healthcare today. You can play an important role in our mission as you choose a challenging career in the following areas:
* Emergency services
* Endoscopy
* Endoscopy
* Infant Services
* Intensive Care
* Medsurg
* Neurology
* Neurosurgery

We offer highly competitive salaries, an excellent benefits package for full-time positions, a pleasant and professional working environment, and advancement opportunities. RN/LPN and RN positions are also available, varied shifted days.

ATTENTION NURSING LICENSE CANDIDATES
Nursing license candidates can now get their unofficial examination results in three business days for only $79.50. This service is not available in all states. It is currently available for candidates applying for licensure in selected states including Missouri.

In order for candidates to receive their results, they need:
* The first 8 digits of the social security number from their application to test form. If candidates do not have this number, they will not be able to obtain their unofficial results using the new RN/LPN Results service.

Please send three business days after taking the NCLEX examination to call the 900 number listed below after 9 am.
1-900-225-6000

There are unofficial results, only the board of nursing in which candidates applied can release official results. The NCLEX examination results reported on the RN/LPN Results are to be used for placement purposes only.

COME TO NOME, ALASKA
"Experience some real northern exposure"
Public Health Nurse
NOME, ALASKA

PHN I, II, III (Positions open), PHN III: 3-4 pm shift nurse (Positions needed) needed to provide public health services to remote villages in the Norton Sound Region in Northwestern Alaska. Required travel by small commercial aircraft with over 40 hours of flying time each year. BS in nursing required. 3-4 years minimum nursing experience, preferably public health, community or health experience with knowledge of various public health programs. RN degree, current Alaskan public health license. Current BS degree preferred. Excellent benefits. Position available immediately.

LPN/IV Therapy Courses

Calina Thomas, PhD, RN
Executive Director

Missouri State Board of Nursing Education
Committee Members
* Patricia Fentenfield, RN, MSN; Chair
* Janet Anthony, RN
* Ian Davis, LPN
* Cordelia付, R.D, RN
* Charlotte You, LPN

APPROVED LNP/IV THERAPY COURSES

The 1983, Section 335.017, RSMo provided Licensed Practical Nurses, instructed and trained by Board approved programs, to perform selected acts of administration of intravenous fluid treatment. The Rule 4 CSR 200-6.410, effective April 24, 1994, established the process and guidelines for the approved programs offering the course, defined the curriculum and identified the specific acts that IV certified LPNs may perform.

The IV Therapy program includes seventy-three approved agencies across the states. Forty-seven of the approved agencies reported they had a total of 120 courses with 1,000 LPNs enrolled.

Out of that group, 597 obtained certification. The revised Missouri Standards, which went into effect on February 21, 1999, added the IV Therapy course to the curriculum of LPN programs.

The Principles of Chronic Wound Management
A 3-Day Workshop

Date: June 20-22, 1999
Location: Kansas City, MO

The workshop is an intensive, hands-on training on chronic wounds. The curriculum covers the biology and pathophysiology of wounds, wound assessment, and treatment strategies for healing wounds. Participants will learn the latest evidence-based practices and guidelines for managing chronic wounds.

Look for New Vital Signs: Does your Career have a pulse?

At Regis University, we make earning a health care degree convenient with flexible programs designed for working adults. We offer a variety of degrees available in accelerated formats or on-line at a distance, RN to BSN options now available on-line.

Bachelor of Science
* Health Care Administration
* Health Information Management
* Nursing
  * Accelerated and Traditional Options
  * RN to BSN Completion
  * RN to BSN Online Option

Master of Science
* Health Services Administration
* Nursing
  * Family Nurse Practitioner
  * Leadership in Health Care Systems
  * Perinatal Nurse Practitioner
* Physical Therapy

continued from page 1

had the power to revoke the nurse’s certificate if sufficient cause was presented. The Board was required to provide a list of revoked nurses to the examiners of other states.

The annual Board was concerned with the RNs. It is interesting to note that three of the first board members held certificates or license number one, two, and three. Mrs. Mabel C. Freytag, certificate number 1355 of Gtaun Missouri, was the first president and Mrs. Fanny L. G. Smith, certificate number 73 of 1916. First Street, Kansas City, Missouri was secretary and treasurer. Other members were: Mollie A. Peterson, certificate number 1 of 7600 Mason Rd., Kansas City, Missouri; Miss Ada G. Gerding, certificate number 2 of Audubon Hospital, Louis, Missouri; and Miss Maude Landis certificate number 3 of the Revered Hospital of Humbolt, Missouri.

The requirements for the registration of nurses’ training school were also adopted December 5, 1909. These rules included that the training school had to be connected with a general or special hospital or institution with no less than 25 beds and have a systematic course of instruction for at least 2 years in both theory and practice. The hospital did have an Education Committee, which included the following: Bacteriology, Botany, Psychology, History, Sociology, English, American History, Languages, and Mathematics, and a Gynecological and Obstetrical training. The rules also provided for the provision of the training nurse and instruction in Companionship in place of Obstetrics and Gynecological studies.

Students attending the schools were “required to have a certificate of graduation from a grammar school or its equivalent, at least twenty years of age, of good moral character, and corrected vision.” From any habit rendering them unfit to be entertained with the care of the sick.” The rules were not to be sent students outside of the hospital for private duty. All clinical experience had to be completed within the hospital.

The Board was also responsible for both oral and written examinations of applicants. At least 2 members were required to preside over the exams which started the first Thursday of June and of December in 1911. The exams had to cover: "Nursing Ethics, Practical Nursing, Anatomy and Physiology, X-ray Examinations, General Surgery, Gynecology, Urology, Obstetrics, Bacteriology and Hygiene, Materis Medica, General Surgery for male patients, care of sick children, Medical Nursing", and Nursing of the insane. "Urinalysis, Physical and Chemical examination of urine for Albumin, Sugar, Urates, Phosphates, pus and blood." Each applicant had to attain 75% on the examination to be registered. To date we have not found the questions for the first year: the earliest being Dec. 1921. The following are the tests for the Medical and Surgical section of the text.

(December, 1921)

QUESTIONS ON MEDICAL NURSING (Answer 10 questions only)

1. Give your method for a hot pack. In what disease might this be ordered?
2. Give nursing care of a paralysed bed patient.
3. What is the purpose of a test meal? How is it prepared and how does a nurse assist in the giving of it?
4. How would you isolate a patient? Name four diseases where strict isolation is required.
5. Give in detail your method of a temperature bath.
6. Name five types of exercises and describe one in detail.
7. How would you make a mustard plaster? What precautions would you take in applying the same?
9. Name a disease in which the diet is the chief treatment and outline the principle of the diet.
10. In seeking a patient to make a bed with a patient in it, what Points would you emphasize?
11. What is a diabetic diet? In what disease might you observe it?
12. Describe the case of thorough in typhoid? Why is this important?

(Surgical Nursing)

(Answer 10 questions only)

1. Describe post-operative care following a pneumothorax.
2. Write at least fifty words on the importance of preparation for an anesthetic.
3. Describe two methods of band dressings.
4. In what ways may clean wounds become infected?
5. What measures are commonly used to arrest inflammation?
6. Tell how you would prepare sponge gloves for use in an operation. How care for them after use?
7. Explain why complications must be watched for following an appendectomy.
8. Give three points which need especially to be noted in using an extension apparatus.
9. What would you have ready for the doctor and how would you prepare the patient for a lumbar puncture?
10. Give symptoms of internal abdominal hemorrhage.

The Air Force Wants Both You And Your Nursing Career To Go Places.

Why Do You Think We Say "Aim High"?

Nursing in the Air Force. Exciting. Rewarding. The best. The profession you work alongside, are the best. So are the facilities. The benefits you enjoy are the best. Are your opportunities for travel, training and advancement, 30 days vacation with pay plus, you may qualify for a $5,000 bonus. If you're a registered nurse with a BSN and at least one year's experience, Air Force Nursing offers the best of everything. As an Air Force officer, you'll not only be respected, you'll be valued.

For an information packet call 1-800-423-USAF or visit www.usaf.com. You'll see why we say, "Aim High!"

- Cendilla Early, Ph.D., RN
- Pat Porterfield, MSN, RN
- Janet Anderson, RN

What Is the HIPDB?

Recently, nurses whose licenses have been disciplined or those who are currently disciplined have received letters from the Healthcare Integrity and Protection Data Bank (HIPDB). The letters inform the licensees that their names and disciplinary actions have been entered into the HIPDB. As a result, the Board of Nursing has received several calls from licensees who are unfamiliar with the HIPDB and are concerned that the letter from the HIPDB is an alteration or further discipline on their license. The intent of this article is to provide readers with information regarding the HIPDB.

The Secretary of the U.S. Department of Health and Human Services was directed by the Health Insurance Portability and Accountability Act of 1996 to create the HIPDB as a national data collection system in which all State Boards of Nursing and health-related professions report disciplinary actions. Oversight agencies, health care plans, and health care providers utilize this collected data to assist them in ensuring public health and safety. The HIPDB contains the following information on all federal or state civil judgments against health care providers, suppliers or practitioners for issues related to health care delivery, federal or state criminal convictions related to health care issues; exclusions of health care providers from participation in federal or state programs; and disciplinary actions by federal or state agencies including health care profession licensing boards.

The Missouri State Board of Nursing does not report information directly to the HIPDB, but utilizes the National Council of State Boards of Nursing as the reporting agent. Even before the HIPDB, disciplinary actions were routinely entered into the Disciplinary Data Bank at the National Council of State Boards of Nursing by the Missouri State Board of Nursing and all other state Member Boards. New disciplinary information will be maintained in both repositories.

Information in the HIPDB is not available to the general public. However, the HIPDB may be accessed by federal and state governmental agencies, health care plans and health care providers, suppliers and practitioners.

For more information about the HIPDB, please contact them at www.npdb-hipdb.com or call 1-800-767-6173.

JOIN US IN OUR TRADITION FOR CARING.

Located 20 minutes from downtown St. Louis, Missouri, St. Elizabeth’s is a 200-bed hospital in Belleville, Illinois, one of the major hospitals in the greater St. Louis metropolitan area. We are a 4-bed labor and delivery unit with approximately 1,000 employees. St. Elizabeth’s Hospital currently has RN and LPN openings for qualified nurses registered in the following areas: OB (delivering $1.50 per hour bonus for FTE), PEDS ($1,500 bonus for FTE), Surgery RN’s & RN’s (40-hour position), Neuro and ICU (Nursing Intensive Care Unit, $1,300 to FTE). One year experience in specialized area is preferred. An Illinois license or license eligibility is required for all Registered Nurse positions.

St. Elizabeth’s offers competitive wages, tuition reimbursement, pension plan, tax sheltered annuity, day care services on site, fitness center discounts, family discount, and a complete benefits package including medical/dental/life insurance.

For more information on current openings at St. Elizabeth’s Hospital contact our Job Line: (618) 695-2120, extension 3303. Qualified candidates may apply in person or forward their resume in confidence to:

**DISCIPLINARY ACTIONS**

Pursuant to Section 335.666.2 RSMo, the Board “may cause a complaint to be filed with the Administrative Hearing Commission as provided by chapter 630, RSMo, against any holder of any certificate of registration or authority, permit, or license required by sections 335.011 to 335.096 or any person who has failed to renew or has surrendered his certificate of registration or authority, permit or license” for violation of Chapter 335, the Nursing Practice Act. Please be advised that more than one licensee may have the same name. Therefore, in order to verify a licensee’s identity, please check the license number.

Listed below are individuals who were issued an initial probationary license by the Board during the previous quarter with reference to the provisions of the Nursing Practice Act that were violated and a brief description of their conduct.

SUTURE NURSE

Mt. Carmel Medical Center, a modern 188 bed acute patient care hospital, is located in a progressive university town of 30,000 people in southeast Kansas.

Mt. Carmel's six operating suites have the capabilities of handling general surgery, ENT, orthopedic, vascular, chest, OB, GYN, ophthalmology, urology and other types of surgery. If you are an experienced operating room nurse, (preferably CNOR) who would like to work with an excellent Medical Staff and a great group of Registered Nurses, call the Human Resource Office today at (918) 232-0147.

We will set up an interview to tell you what we can offer for your time and talents.

Call our "job opportunity line" for complete listings of positions available, 316-285-3535.

**NURSE MANAGER POSITIONS - ADULT PSYCHIATRIC SERVICES AND ER TRAUMA CENTER**

Mercy Medical Center, a 333 bed hospital, is seeking Nurse Managers for our Progressive Level II Emergency Trauma Center and Adult Psychiatric Services Department, including a 12 bed open Behavioral Unit and a 16 bed ‘secure unit’ and crisis and assessment programs.

Successful candidates must have a strong clinical background in desired specialty as well as previous management experience. Also important are excellent communication skills, the ability to work successfully with all disciplines, facility and an overall dedication to patients and family.

Nurse Managers at Mercy are responsible for the 24 hour operation of departmental services and for the coordination of an interdisciplinary approach to patient care. A bachelor’s degree is required, master’s degree desirable.

The successful applicant will find Mercy a "state-of-the-art" facility with a caring attitude toward patients, families and fellow employees. With our excellent work environment, we offer competitive benefits and salary package. For consideration please submit resume to:

Life Goods, R.N., Nurse Recruiter, Mercy Medical Center, 201 S. 10th Street, Cape Girardeau, MO 63701-1813

Changing the Heart of Health Care.

One Nurse at a Time.

At SSM Health Care - St. Louis, we believe that one person can make a difference. Quality nursing in more than health, it's about making a difference in the life of the people we serve. This philosophy includes our patients, our physicians, our community, and our employees. It is reflected in SSM's selection for the 1999 Missouri Quality Award, and in our dedication to give health care system in the nation to receive a site visit from the Malcolm Baldrige National Quality Award program.

Because we value our people as well as our patients, SSM Health Care offers a competitive package to attract health care professionals of like mind and spirit. While our compensation and benefits are excellent, our commitment extends beyond attracting good people, to keeping them with job satisfaction initiatives including:

- Preceptor orientation & expanded tuition reimbursement
- Exceptional - performance based development and expanded internship opportunities
- A variety of flexible scheduling opportunities to accommodate personal and family needs.

SSM Health Care - St. Louis helps you determine where you want to be, and will help in design an education and experience package to help you achieve your career goal. If you believe you can make a difference in people's lives, let SSM Health Care help make the difference in your career.
