COMPOUNDING AND INTERNET ACTIVITY STATEMENT

COMPOUNDING:
Missouri regulations pertaining to compounding include 20 CSR 2220-2.200 Sterile Pharmaceuticals and 20 CSR 2220-2.400 Compounding Standards of Practice. Both regulations can be found in their entirety at our website: http://pr.mo.gov/pharmacists. Specifically, Missouri regulation prohibits/restricts the compounding of commercially-available products and the distribution of compounded products to the other pharmacies, practitioners, or commercial entities. Missouri regulations 20 CSR 2220-2.400 states:

(9) Compounding of drug products that are commercially available in the marketplace or that are essentially copies of commercially available Federal Drug Administration (FDA) approved drug products is prohibited. There shall be sufficient documentation within the prescription record of the pharmacy of the specific medical need for a particular variation of a commercially available compound.

(12) Pharmacists shall not offer compounded drug products to other pharmacies, practitioners or commercial entities for subsequent resale or administration, except in the course of professional practice for a prescriber to administer to an individual patient by prescription.

A pharmacy cannot distribute compounded products for “office use” or “office stock” but must be in receipt of a valid patient-specific prescription prior to dispensing the product.

___ Yes, I have read Missouri regulations 20 CSR 2220-2.200 and 20 CSR 2220-2.400 and intend to comply with them.

INTERNET ACTIVITY:
Missouri regulation 20 CSR 2220-2.020 (11) Pharmacy Permits states:

(11) Prescriptions processed by any classification of licensed pharmacy must be provided by a practitioner licensed in the United States authorized by law to prescribe drugs and who has performed a sufficient physical examination and clinical assessment of the patient. A pharmacist shall not dispense a prescription drug if the pharmacist has knowledge, or reasonably should know under the circumstances, that the prescription order for such drug was issued on the basis of an Internet-based questionnaire, an Internet-based consultation, or a telephonic consultation, all without a valid preexisting patient-practitioner relationship.

The use of a form, questionnaire and/or telephone interview to fulfill the examination or assessment of a patient shall not be considered sufficient to provide or execute a valid prescription.

___ Yes, I have read Missouri regulation 20 CSR 2220-2.020 (11) and intend to comply with it.
